The applicant is Tennessee Valley Authority (TVA) Bull Run Fossil Plant with a mailing address of 1265 Edgemoor Road, Clinton, TN 37716. They seek to obtain an air contaminant permit (Division identification number: 01-0009-12/62208) for construction of a Temporary Auxiliary Startup Boiler at the same address. The proposed boiler would be fired by low-sulfur distillate (No. 2) fuel oil and propane, and the nominal heat input would be 88.0 MMBtu/hr. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Butler is the assigned Division person.
